Nick is an ambitious and dedicated U.S. Army veteran who served across five combat deployments, advancing from a mortarman to a sniper team leader. Now, he works as a quality engineer for a global health and wellness company and enjoys running, hunting, and being outdoors. FSD Service Dog Dijon helps mitigate Nick's traumatic brain injury and service-related injuries caused by an IED explosion in Afghanistan by creating space in public, providing deep pressure therapy, interrupting anxious behaviors, fostering independence and confidence, and offering love and companionship. Nick looks forward to taking his new ranger buddy to the lake to enjoy time with family.

Proceeds Benefit Freedom Service Dogs

Freedom Service Dogs of America (FSD) helps veterans, active duty military members, first responders, and others challenged by disabilities regain their independence and participate more fully in life with a custom-trained service dog by their side. FSD provides highly-skilled assistance dogs and lifetime support to all client-dog teams, completely free of charge.

With unconditional love and loyalty, FSD service dogs support our nation's heroes by awakening them from nightmares, interrupting flashbacks, creating space in crowds,

retrieving items, providing balance support, performing deep pressure therapy, and more. Most importantly, these trusted canine companions always offer comfort, love, and friendship in the difficult moments, helping to break down the barriers of isolation and anxiety for these deserving men and women who bravely served our country and communities.
